About the Symposium

Diagnosis and management of plant diseases: Integrated approaches and recent trends

In today's world with trade barriers and quarantine issues, exact identity of a plant pathogen is of utmost importance. Especially, molecular approaches combined with electron and light microscopy can reveal the accurate identity of the pathogen. This has bearing on management issues. Host plant resistance is specially dependent on exact identity of the pathogen. Integration of all available methods, development and refinement of the existing plant disease management strategies is the need of the hour if agricultural production has to remain profitable and sustainable.

Objective of the symposium

Diagnosis and management are the core issues in plant pathology. Deliberations in this symposium will help in formulating strategies for better diagnosis and management of plant diseases in an environment friendly and economical way.

Themes (Sessions)

- Session I : Integrated approaches for disease management
- Session II : Host plant resistance
- Session III : Plant diseases and climate change
- Session IV : Molecular approaches for diagnosis and management
- Session V : Plant disease management in organic agriculture
- Session VI : Emerging plant pathogens: Issues and concerns
- Session VII : Nanotechnology and plant pathology
- Session VIII : Plant microbe interaction
- Session IX : Functional genomics for biotic and abiotic stress management

About the venue

Meghalaya is one among the eight states of north east India. It came into being in 1972. The monsoon period extends from May to September. Cherrapunjee and Mawsynram are located in this state which are places with maximum recorded rainfall on earth. There are many picturesque waterfalls in this state i.e. Elephant falls, Seven sisters falls, Mawsmail falls etc. This place also boasts of many more attractions like caves (Mawsmail etc.), root bridge, Umiam reservoir and Mawlynnong, the cleanest village in Asia etc. Main languages in this state are Khasi, Garo and Pnar, official language of the state is English. Meghalaya's capital Shillong is well connected with road and air. Guwahati is the nearest railway link to this city (Guwahati – Shillong- 90 kms). The ICAR Research Complex for NEH region is located at Umiam (18 kms from Shillong on Guwahati-Shillong highway NH 40). Nearest air link are Guwahati airport (~72 kms), flights available from major airports of the country and Umroi airport (~5 kms), flights from Kolkata only.

Accommodation

- Accommodation for participants will be arranged in research institutes / university guest houses/other private guest houses on payment basis (Rs. 100 to Rs. 1500 approx. per day). Accommodation can also be arranged in hotels that would cost Rs. 2500 to Rs. 5000 (single occupancy) and Rs. 4000 to Rs. 6000 (double occupancy) per day. We can assist the accommodation in star hotels as well.
- Efforts will be made to provide less expensive accommodation for the student participants of the symposium.”
